

Facial Procedures with Talgo Products

	Duration (min.)	Price (BGN)
“Purity” ritual The procedure begins with gentle cleaning of the face, neck and neckline skin, peeling with melting exfoliant containing enzymes and bay salts, and energizing sea spray. It is followed by relaxing massage with cream enriched with microelements and vitamins. For optimal skin hydration a fine cream-like mask is applied followed by finishing products for eye contour and face. The skin becomes relaxed, shiny and toned-up.	45	60
Intensive hydrating care “Heart of the Ocean” Combining the deep hydrating effect of sea water and the detoxifying effect of micro elements and bay salts, this cosmetic therapy increases the hydrating levels and recovers skin brightness. The procedure begins with overall cleaning of face and neck and exfoliation, followed by relaxing manual massage. The specific alginate mask with active hydrating serum saturates the skin with hydrating and nourishing active components of sea origin, thus making it smooth, elastic and breathtaking.	60	80
“Spiruline” - detoxifying, boost and smoothing treatment An incredibly relaxing procedure specially created for the residents of the big city, who are daily subjected to the effect of the polluted urban environment, overwork and stress. SPIRULINE BOOST effectively eliminates toxins, smoothes fine lines and wrinkles, refreshes, revitalizes, and restores the radiant glow of the skin. For optimal hydration, a plasticizing hydrating mask and finishing products for the eye contour are applied. The skin becomes relaxed, shiny and toned.	60	90
Hyalu-procollagen programme An anti-wrinkle solution highly concentrated in Hyaluronic Acid, this treatment fills and corrects established wrinkles thanks to an exclusive sculpting massage and a professional double mask. From the first treatment, the skin appears younger and smoother. The complexion is radiant with youth.	60	150
